

Excellence in Surveillance

CORPORATE BROCHURE

THE CORE STRENGTH AND VALUES OF THE COMPANY ARE:

Innovation

IDIS is a pioneer in the video surveillance market. Our history demonstrates our ability to turn innovation into practical applications. We are at the very frontier of industry technology. IDIS has developed over 100 different products to date and has 50 core patented technologies.

Credibility

IDIS is a recognised expert in the security industry, and we have quickly established ourselves as world-class solution provider. We are proud to be at the forefront of the industry. Our growth ambitions remain on track underpinned by our significant resources and financial stability.

Sustainable growth

At IDIS we have built a reputation of trust with partners, suppliers and customers. Since the company was established, IDIS has built strong and proactive relationships. We value the contribution of our staff, suppliers, partners, direct customers and even competitors in shaping the future of the security industry.

The Vision to Excel

IDIS is an established global security solutions company which designs, develops, manufactures and markets security surveillance solutions. Since 1997 we have grown to become the world's No.1 DVR manufacturer with an annual turnover of \$140 million with more than 1.7 million DVRs installed through our global top tier partners.

Our aim is to be the world's leading provider and partner of choice for surveillance solutions that protect people, property and assets through innovation and cost-effective technology coupled with unrivalled performance, quality and functionality.

Looking forward from a strong heritage

IDIS consistently drives new technology innovation and manufacturing excellence for the benefit of our customers. We have sustainably grown the business and built strong and trusting relationships with our valued partners and customers. IDIS remains committed to the future of the security industry.

IDIS is the specialist in surveillance technology that delivers truly integrated, compatible and reliable solutions to meet the needs of an increasingly demanding marketplace.

Our industry leading position is the result of the company's commitment to excellence; excellence in innovation, in product and manufacturing. Excellence in Surveillance. We are naturally proud of our heritage, the achievements, awards and accolades realised to date, yet we are an organisation that continues to drive and transform the industry. IDIS is now set to introduce the next generation of HD surveillance solutions.

OVER THE YEARS IDIS HAS BEEN RESPONSIBLE FOR MANY SIGNIFICANT INDUSTRY DEVELOPMENTS SUCH AS:

2009 / ISP1000

Image processing IC based on H.264 DVRs have been developed and launched

2009 / iNEX

Video Management Software iNEX developed and launched

2008 / INC

INC featured with D1 IP Camera was first developed and released

2008 / MMX

Mini-Matrix Switcher MMX was released

2007 / RAS Mobile

Remote Viewer for Mobile Phone and PDA was released

We have the vision for the next generation

Direct IP™

Unique to the industry, IDIS DirectIP™ offers the next generation in surveillance solutions.

DirectIP™ is an optimised HD surveillance solution that consists of IP cameras and NVRs networked and managed by IDIS video management software and delivered as a single source solution. This directly translates to simplicity of use, reliability, compatibility and lower costs.

DirectIP™ is a one stop shop solution that delivers high performance, uncompromised real-time HD monitoring plus simple, hassle-free installation and compatibility.

Next generation HD surveillance that simply works

A world-wide perspective

IDIS is a global organisation operating in over 35 countries across world. Over 50% of our business is either direct or through partner export sales, and we have over 100 business partners across the globe.

Over 15 years we have also built close partnerships with the leading international security equipment companies. At IDIS we have a wealth of experience across a broad spectrum of industries, commerce and public sector bodies. Our integrated surveillance solutions are currently installed and operating in retail, banking and finance, education, manufacturing, healthcare amongst many other industries.

IDIS's next generation surveillance solutions meet the needs of an increasingly demanding security landscape to protect people, property and assets through flexible and cost-effective technology coupled with unrivalled performance, quality and functionality.

IDIS has over 100 partners in over 35 countries

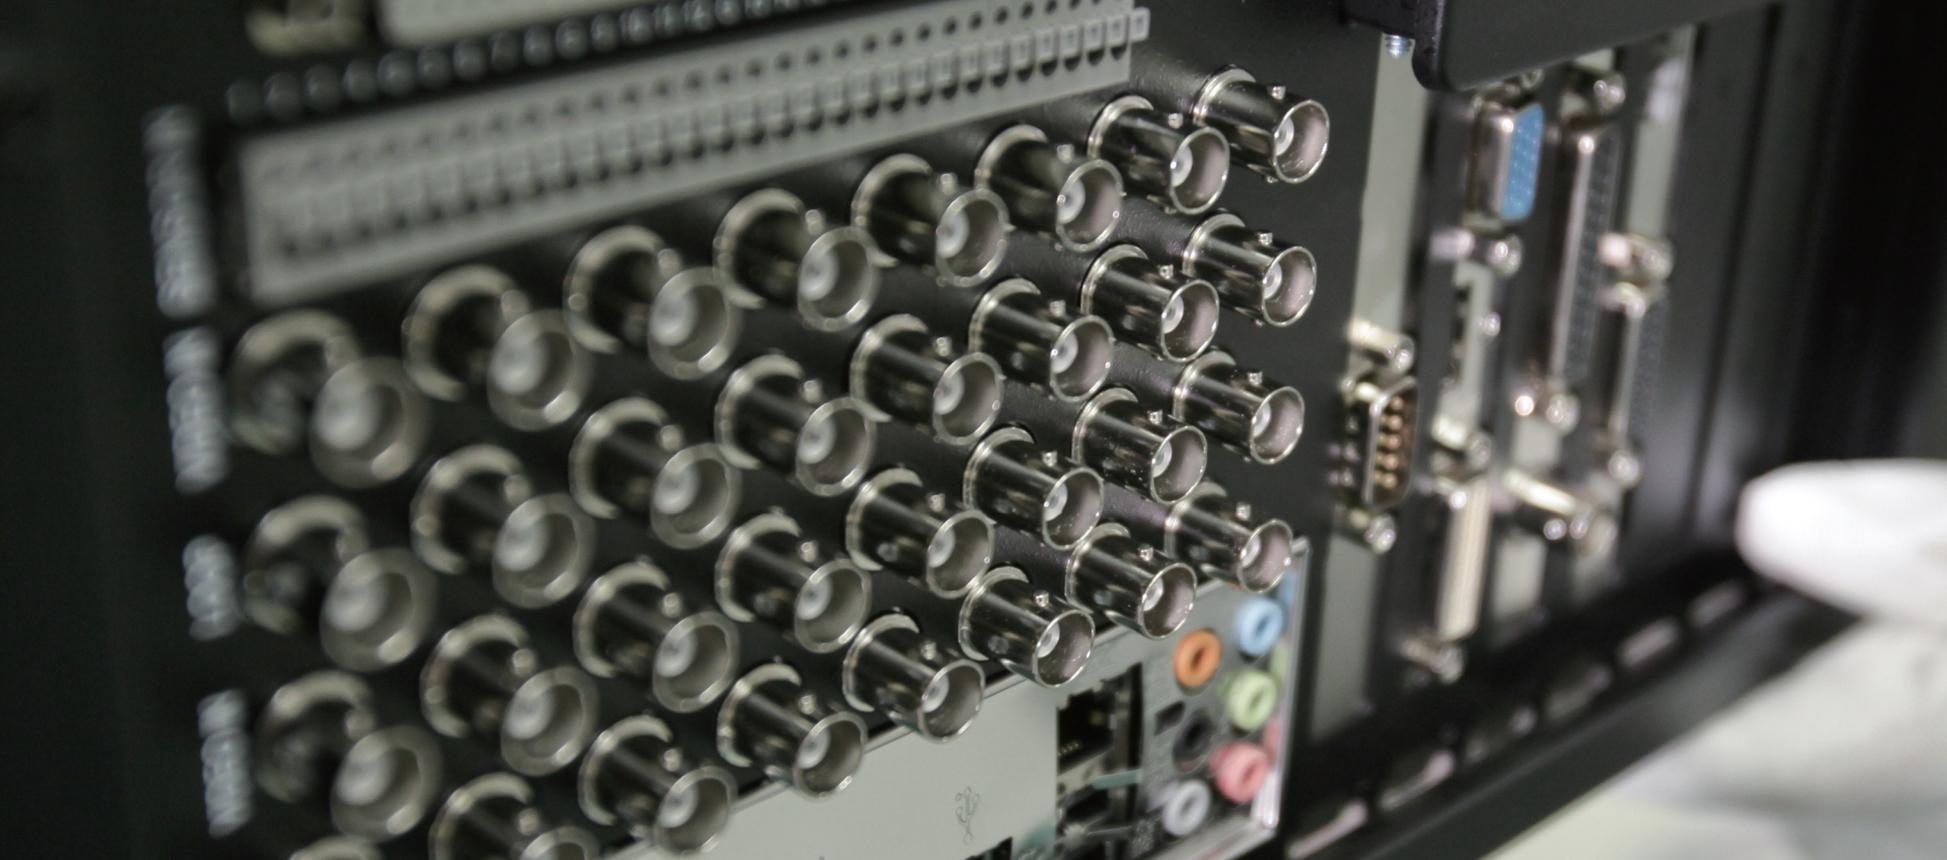

51 million days have been recorded by IDIS devices

The IDIS partner program has been running over 10 years and many of our original partners are still with us

There are over 11.5 million cameras connected and operating with IDIS products

Over 1.7 million IDIS products are installed world-wide

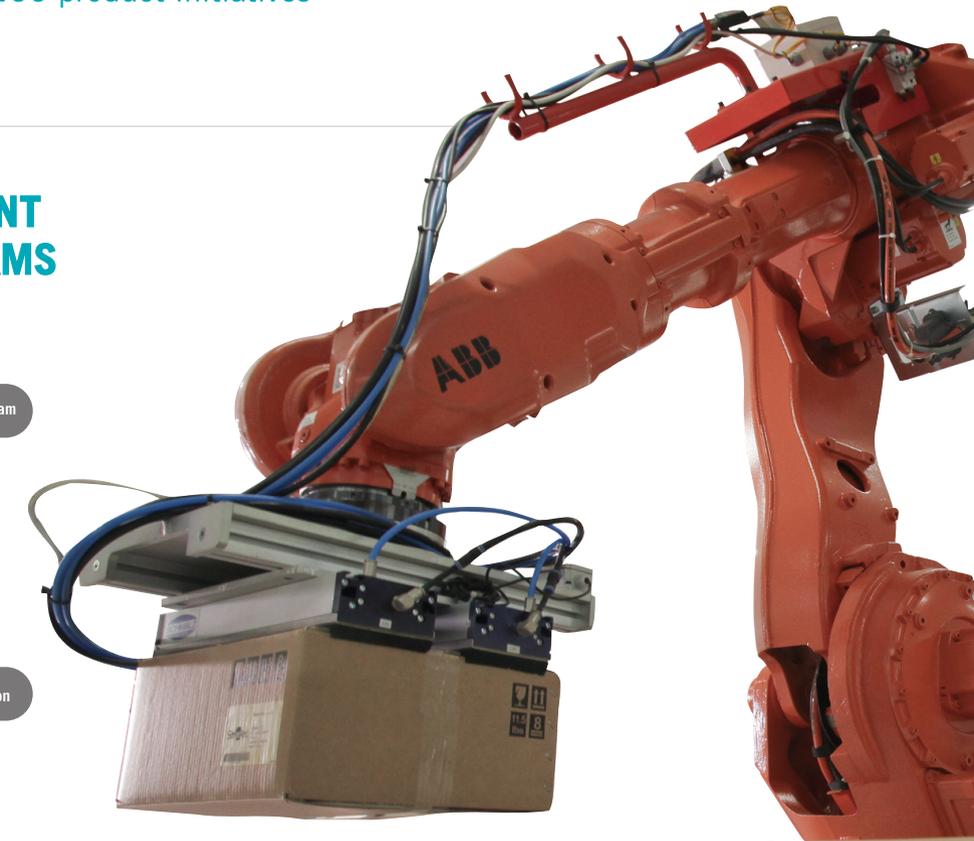

Seeing beyond the standard

All IDIS products are fully compliant with industry standards both in operation and in the manufacturing process, but we set our standards beyond the norm.

Our worldwide certifications include ISO14001, ISO900, ROHS and Six Sigma. IDIS also deploys its own efficient production and quality control processes.

- 10% of turnover reinvested in R&D year-on-year

Listed on KOSDAQ (143160)
Korean equivalent to NASDAQ

We see quality

IDIS is a company that does not stand still. The IDIS development model for driving innovation consists of four core competencies – a continued investment in people and technology, the capability to efficiently deliver best quality products, a flexible organisational infrastructure and the optimisation of our core patented technologies.

IDIS's production facilities are underpinned by state-of-the-art manufacturing equipment and resources. Our design and manufacturing plant was purpose built and uses the latest computer aided processes, modern manufacturing techniques and production management skill sets. The investment by IDIS into Research and Development is second to none. Equally we have comprehensive quality control processes and procedures. It is a commitment that is inherent to our business. This investment has grown year on year resulting in an explosion of new technology. Today we are leading the next generation of surveillance technology.

IDIS HAS FOUR INDEPENDENT QUALITY ASSURANCE TEAMS

Sharing the vision

The IDIS passion is embraced by our staff across the world. We recognise that IDIS's greatest resource is our people. From the factory floor to the boardroom, IDIS staff share the vision of Excellence in Surveillance.

IDIS respects and supports external communities by contributing resources and ensuring people directly benefit from our community projects. We truly appreciate the wider community and embrace our responsibility beyond the workplace.

A social and environmental responsibility

IDIS has a strong CSR and green policy. We employ eco-friendly working practices and constantly review our operations in the context of our carbon footprint and recycling programmes as implemented throughout our world-wide locations.

IDIS is certified ISO1400, the universal standard for environment management systems. In addition, we were the first Korean company within the security industry to achieve ROHS certification.

IDIS is part of IDIS Holdings Group

IDIS Holdings as industrial multimedia group has three core divisions: Video Surveillance, Industrial Display and Industrial Card Printer. The Group employs over 800 personnel and had a gross turnover of \$500m in 2012, forecast to become \$1B by 2017. The Group's core aims are to expand its divisional business operations, to drive a synergy as a whole between divisions and to maximise benefit derived from products and services offered to the industry. The Group is committed to a policy of growth and sustainability.
